

# Research Annals of Xavier's Nepal

excel

Science and Technology Series

Issue: 6.1, 2024

**ST. XAVIER'S COLLEGE**

MATTIGNAR, KATHMANDU, NEPAL

DEDICATED TO EXCELLENCE, LEADERSHIP, SERVICE

# Table of Contents

|     |                                                                                                                                                     |    |
|-----|-----------------------------------------------------------------------------------------------------------------------------------------------------|----|
| 1.  | A Comparison of Supervised Machine Learning Algorithms to Identify Credit Card Fraud                                                                | 1  |
|     | <i>Anuj Shrestha and Shreyeska Silwal</i>                                                                                                           |    |
| 2.  | Convolutional Neural Network Architectures for Detection of Kidney Abnormalities: A Comparative Analysis                                            | 7  |
|     | <i>Er. Rabin Maharjan and Siddhartha Sitaula</i>                                                                                                    |    |
| 3.  | A Study Comparing Sentiment Analysis Algorithms in English and Chinese: Evaluating Reviews and Fine-Tuning Hyperparameters for Improved Performance | 14 |
|     | <i>Rajan Karmacharya and Success Pokhrel</i>                                                                                                        |    |
| 4.  | A Comparison Analysis of Machine Learning Methods for Customer Churn Prediction in the Telecom Sector                                               | 23 |
|     | <i>Sarjaya Kumar Yadav and Sujal Chappain</i>                                                                                                       |    |
| 5.  | Formulation and Evaluation of Herbal Hand Sanitizer                                                                                                 | 29 |
|     | <i>Angela Shrestha and Mallika Aryal</i>                                                                                                            |    |
| 6.  | Screening of <i>Bacillus</i> spp. with plant growth promoting traits                                                                                | 39 |
|     | <i>Rajani Shrestha and Alee Adhikari</i>                                                                                                            |    |
| 7.  | Mutidrug-resistant Isolates of Gram-negative Bacilli From Soil Samples of Poultry Farms                                                             | 49 |
|     | <i>Sony Shrestha and Kriti Bharati</i>                                                                                                              |    |
| 8.  | Screening of Different Enzymatic Activities and Biofertilizer Potential of Garbage Enzyme Derived from Fruit and Vegetable Waste                    | 60 |
|     | <i>Srijana Thapaliya and Sandhya G C</i>                                                                                                            |    |
| 9.  | Correlations of $PM_{2.5}$ and temperature with microorganisms in air                                                                               | 72 |
|     | <i>Niraj Nakarmi and Sabi Karki</i>                                                                                                                 |    |
| 10. | Assessment of Rancidity of Cooking oil Used in School and College Canteens of Kathmandu                                                             | 81 |
|     | <i>Shyam Prasad Pant and Sebika Dahal</i>                                                                                                           |    |

11. Study on the Acceptance Testing of Ion Chamber Before using it for Dosimetric Evaluation in a Radiation Oncology Department 89  
*Vinaya Kumar Jha and Roshni Tamang*
12. Climatological Variation between GPS Data and Meteorology Parameters over the Himalayan Region of Nepal 95  
*Basu Dev Ghimire and Ayush Jaiswal*
13. Spectral Analysis of Particulate Matter  $PM_{2.5}$  and  $PM_{10}$  Over Different Regions of Nepal 105  
*Binod Adhikari and Shreedip Kaini*
14. Study of Ion, Electron, and Neutral Temperature During Different Geomagnetic Storms 118  
*Drabindra Pundit and Sudip D.C.*
15. First Principle Calculations of Oxygen doped Graphene (ODG) 127  
*Khagendra Tripathi and Diwash Ghimire*
16. Computational Study on Vibrational Properties of Anticancer Compound Sulforaphane 136  
*Kiran Pudasainee and Sandesh Goitane*
17. Spectral Analysis of X-Ray Data from Nuclear Spectroscopic Telescope Array of GX 339-4 144  
*Shreeram Nagarkoti and Hritika Pratap*
