The Technical Mentor...

Vol-3, 2018

CIVIL ENGINEERING STUDENT'S SOCIETY
(CESS-Nepal)

IOE, Purwanchal Campus, Dharan

Contents

S.No.	Title	Page No.
1.	पहाडी भुभागमा बन्ने परम्परागत घरहरु कसरी भुकम्प प्रतीरोधी बनाउन सकिन्छ? डा. जगत कुमार श्रेष्ठ	1
2.	Effect of multilayer microstructure on the structure and mechanical properties of ni- based nano-composite coatings. Dr. Malay Kumar Das & Paribesh Phuyal	4
3.	Impacts of climate change on river hydrology using snowmelt runoff model: a case study of Melamchi catchment. Er. Kaji Ram Karki	10
4.	Kokaha khola a reliable water source for water scarced city dharan of eastern nepal-a case study. Er. Dak Bahadur Khadka	17
5.	नेपालको “राष्ट्रिय भवन संहिता” : एक चिनारी अमृत मान तुलाधर	21
6.	Lead uptake rate of water hyacinth (<i>eichhornia crassipes</i>) from industrial wastewater and its biomass growth Er. Jagar Nath Shah	24
7.	Bioengineering reduces air pollution from urban transport as an aspect of cognitive engineering to brain inspired systems Er. Prashant Shah	29
8.	Seismic Retrofitting Er. Hasrat Ali Nepal	30
9.	Comparison of articles on the topic of air pollution from particulate matter Er. Sunil Rakhal	36
10.	Temporal variation of black carbon (bc) concentration in south asian cities Er. Sishir Dahal	39

- | | |
|--|----|
| 11. Theoretical assessment of districtwise distribution of hydropower and irrigation potential in different scenarios using gis and hydrological modeling technique: a case study of gandaki basin of Nepal
Er. Tirtha Karki | 46 |
| 12. Effect of structure soil structure interaction on seismic response of adjacent building
Premhari Parajuli | 48 |
| 13. Geotechnical Approaches for Slope Stabilization in Residential Area
Seema Pahadi | 49 |
| 14. Utilization of demolished building waste for new construction
Manish Kumar Jha | 53 |
