Goal

- Energy
- Manufacturing
- Informations
- New Inventions
- Automobiles
- Management
- Information Technology
- Aerospace

SIMES

Society of Innovative Mechanical Engineering Students

VOLUME IV

CONTENTS

S.N.	Title	Page No.
1.	<i>Metal Nanoparticles decorated zinc oxide and graphitic carbon nitride composite- a newly nanocomposite materials for environmental pollution control</i>	1-4
2.	<i>Defect analysis of hand wheel casting using computer aided casting simulation technique</i>	5-9
3.	<i>Wage & factors influencing wage rates</i>	11
4.	<i>Radiation effects from mobile phone and its preventions</i>	12-13
5.	<i>We will remain poor country even after two decades</i>	14-15
6.	<i>Numerical study of shrinkage effect due to welding repair of pelton runner on torque generation</i>	16-18
7.	<i>Reasons why mechanical engineering is the best engineering field</i>	19-20
8.	<i>Energy audit</i>	21-23
9.	<i>Ending regime of fossil fuel</i>	24-25
10.	<i>Differential</i>	26
11.	<i>Antilock braking system</i>	27-28
12.	<i>Are electric vehicles really green ?</i>	29
13.	<i>Futuristic technologies</i>	30-31
14.	<i>Nanotechnology</i>	32-33
15.	<i>Fuel Cell</i>	34-36
16.	<i>Flux-less direct soldering of aluminum by ultrasonic surface activation</i>	37
17.	<i>Rocket</i>	38-39
18.	<i>Sky active energy</i>	40
19.	<i>MEMS</i>	43-44
20.	<i>Carburetor v/s fuel injector</i>	45-46
21.	<i>Holography</i>	47
