TABLE OF CONTENTS

I. AGRICULTUREpp. 11 - 55

Effect of different level of humic acid on crop growth and soil fertility– Abinash Subedi

Economic analysis and marketing dynamics of tomato farming at Lalitpur District - Ajeeb Narayan Shrestha

Effect of organic nutrient management on growth and yield of spinach (*Spinacia oleracea*) and its residual effect on soil - Anjana Kunwar

Study on efficacy of commercial organic fertilizer on onion-Anuja Khadka

Promotional potential of organic farming for livelihoods and socio-economic upliftment of the farmers in Salyan District – Anupa Sanjel

Present status and role of onion farming in income generation in Bhaktapur District - Aradhana Bhatta

Study on the incidence of aphid in broad leaf mustard in Madhyapur Thimi and in NARC condition – Asmita Bajgain

Effect of different levels of biochar on crop growth and soil fertility - Asmita Khadka

Growth, yield, post harvest quality and soil nutrient status of coriander (*Coriandrum sativum*) under organic nutrient management - Asmita Pokhrel

Assessment of agriculture, food and livelihood situations among small farm households in Jitpur Phedi – Ayusha Karki

Study on chemical and biological properties of soil under long term soil fertility trial in rice-wheat cropping system at Khajura, Nepalgunj – Babita Lamichhane

Production a study on production, income and marketing status of mandarin orange in Salyan District – Babita Pokhrel

Production and market status of apple and its role in income generation in Jumla District - Baram Bahadur Shahi

A study on production and value supply chain of radish in Bhaktapur District, Nepal - Bhawana G.C.

Assessment of poverty and food security situation of dalit community in three VDCs of Salyan District - Bhim Prasad Acharya

Assessment of climate change impacts on cropping patterns and crop yield at Kathmandu, Bhaktapur and Kavre Palanchowk Districts - Binita Oli

Site specific nutrient management of rice (*Oryza sativa*) based on nutrient expert model at Dhanusa and Sindhupalchowk Districts – Binod Dahal

Status and prospects of kiwi farming in Dadeldhura District – Dharmendra Adhikari

Effects of altitudinal variations in fruit quality parameters of sweet orange in Dadeldhura District – Dharendra Bahadur Ayer

Organic agricultural practices and resources used in Lalitpur District - Dipesh Maharjan

Commercial tomato grower's management practices against *Tuta absoluta* - Divya Joshi

Comparative study on benefit cost ratio of major leafy vegetable crops in Bhaktapur District – Jagat Kumari Sharma

Club root disease and its management practice adopted by farmers in Kathmandu Valley – Janaki Joshi

Production techniques and marketing of green garlic in Madhayapur Thimi Municipality, Bhaktapur District – Jivan Gaire

Pest and disease surveillance of vegetable crops and its management practices adopted by the farmers in Banke and Surkhet Districts – Kapur Bhusal

Effect of organic vegetable production on food and nutrition and livelihoods security of households in eco-villages in Dang – Kiran Giri

Effect of integrated plant nutrient management on the growth, yield and soil nutrient status of broad leaf mustard (*Brassica juncea* var *rugosa*) - Krish Rauniyar

Major diseases of banana and farmer's management practices in Chitwan District - Kundan Shah

Major insect pest management practices of cole crops in Gothatar Kathmandu - Laxman Bhandari

Green onion production techniques and marketing in Madyapur Thimi Municipality, Bhaktapur District, Nepal - Manisha Gautam

Cropping system practices adopted by the farmers of Kageshwari-Manohora Municipality in Kathmandu District - Manisha Khadka

Study on the use of organic fertiliser and cropping system for crop productivity and soil sustainability in Bhaktapur District - Okas Shakya

Production practices and marketing of cauliflower crop in some Municipalities of Lalitpur District - Prakash Joshi

Impacts of organic vegetable farming in livelihood of farmers at Bhaktapur District - Prakriti Shrestha

Insect pests of tomato and potato, and their management practices adopted by farmers in Kathmandu valley - Prashant Jung Karki

Land capability and soil assessment of agriculture land use in Jagannathpur VDC, Parsa District – Pravesh Regmi

Effect of various organic nutrients on soil composition, growth and yield of cress – Pushpa Karki

Status of major potato diseases and its management practices adopted by farmers in Kavre Palanchowk District - Ramesh Dhital

Evaluation of wheat genotypes against yellow rust - Rojan Karki

Growth, yield, post harvest shelf life and soil nutrient status of coriander (*Coriandrum sativum*) under integrated plant nutrient management - Roshani Karki

Poverty and food security status of Dalit community in five VDC's of Mugu District, Nepal – Sagar Malla

Effects of various organic manures on soil composition, growth and yield of broad leaf mustard - Sahana Shrestha

Effect of organic nutrient management on growth and yield of (*Beta vulgaris*) and its residual effect on soil - Samikshya Pyakurel

Production practices, marketing and problems in broad leaf mustard cultivation in Bhaktapur District - Sandeep Bharati

Assessment of potato clones for yield and yield attributing characters in NPRP farm, Khumaltar, Lalitpur – Sandipa Panta

On-farm incidence of cabbage aphid (*Brevicoryne brassicae* L.) in Salyan District on performance of cabbage variety – Sanju Khanal

Production and marketing of Jhapali malbhog in Chitwan District – Sarkal Jyakhwo

Effect of packaging materials on post-harvest loss of apple - Saurav Poudel

A study on coffee leaf rust and farmer's management practices in Lalitpur District – Shashank Kafle

Postharvest losses of organic apples in Jumla - Srijana Dhital

Sustainable livelihood improvement of marginalized people of 3 VDCs of Makwanpur District through organic vegetable farming - Shweta Dhakal

Efficacy test of bio-pesticides in management of clubroot disease - Soham Shrestha

Production practices and problems of ginger farming in Garpa VDC and Sharada Municipality of Salyan District – Sulochana Giri

Management of insect pest of cauliflower using different ecofriendly pesticides in Kathmandu Valley – Suman Gajurel

Major insect pests in cauliflower and their management practices in Kathmandu District - Sunita Pandeya

A study on efficacy of IPM practice over farmer's practice in Kathmandu Valley - Suresh Oli

Comparative study on potato cultivation under IPM and conventional farming system in Kavre Palanchowk District - Surya Prasad Adhikari

Assessment on major diseases of broad bean in farmer's field and research station at Kathmandu valley - Sweccha Baral

Earthworm growth performance in different soil and organicmanure ratio – Umesh Bahadur Khadka

Production practices, problems and income generation from leafy vegetable crops in Manohara VDC, Bhaktapur District - Bibek Kumar Yadav

2. VETERINARY SCIENCEpp. 56- 75

Prevalence of fasciolosis among cattle in Kavre Palanchowk District – Aashish Thapa

Detection of antibiotic residues in milk samples of Kathmandu District- Alisha Jha

Study of gastro-intestinal parasites in emus of Rupandehi District- Bishnu Subedi

A pilot study on clinico-efficacy of ivermectin in treatment of mange/mites in dogs of Kathmandu District- Anisha Shrestha

Seroprevalence of major poultry diseases (mycoplasmosis, Ib, Nd and avian influenza) in selected poultry farms of Bhaktapur District- Bimal Ghemosu

Study of gastro-intestinal parasites in emus of Rupandehi District- Bishnu Subedi

Prevalence of intestinal helminth parasites in Pakhribas black pigs - Dev Kumar Darlami

Identification of *Salmonella* species in poultry meat with antibiotic sensitivity test of isolated organism in Kathmandu Valley – Draupati Tamang

A study on sub-clinical mastitis in dairy cattle of Dhulikhel and Banepa of Kavre Palanchowk District - Ganesh Kumar Sapkota

Prevalence of *Toxocara vitulorum* in cattle and buffalo calves of Vyas Municipality of Tanahun District – Gokarna Ghimire

Sero-prevalence of salmonellosis in poultry of Kathmandu Valley - Juhi Kumari Thakur

Study on gastro-intestinal parasites in ostriches of Rupandehi District - Manishwar Chaudhary

Detection of helminth parasites in goats slaughtered at retail meat shops in Bhaktapur District - Nishant Sharma Gelal

Contamination of coliform in the raw milk from different collection centres of Kathmandu District - Puja Khanal

Present status of traditional pig farming in Kathmandu District - Raghendra Tiwary

Prevalence of haemoprotozoan parasites in cattle of Sunsari District - Ramesh Ghimire

Prevalence of subclinical mastitis and reproductive disorders in chauries of Dolakha District - Rashmi Ghimire

Study on the prevalence of helminth infestation and its associated risk factors in captive Asian elephants (*Elephas maximus*) of Sauraha, Chitwan – Richa Khadka

A survey on livestock husbandry practices and perceptions on zoonotic diseases among people in three VDC's of Dhading District – Samagya Kharel

Prevalence of fasciolosis in goats of Siraha District - Shibendra Kumar Chaudhary

Prevalence of sub-clinical mastitis in dairy buffaloes of Maintada VDC of Surkhet District - Sobina Malla

Occurrence of gastrointestinal parasites in dogs brought at Kathmandu Veterinary Clinic based on coprological examination – Srija Wagle

Prevalence of brucellosis in goats of Dolakha District - Sudikshya Paudel

Prevalence of Cryptosporidium in goat of Gokarneshwor Municipality- Suresh Shrestha

Sero-prevalence of brucellosis in dairy cattle of Sunsari District - Surya Narayan Shah

Prevalence of fasciolosis in cattle of two municipalities (Kageshwori and Gokarneshwor) of Kathmandu District - Sushila Shrestha

Study on antibiotic residues in marketed broiler meat of Kathmandu Valley – Ujjwal Gwachha

Prevalence of mastitis in cattle and buffaloes of Sonpur VDC of Dang District – Urza Devkota

Prevalence of fasciolosis in goats at Shaniarjun Municipality of Jhapa District - Nawaraj Pokhrel.

3. AGRIBUSINESS MANAGEMENT.....pp. 76-77

Information and communication technology (ICT) contribution in economic and managerial aspects of poultry farming in Kathmandu Valley of Nepal - Padam Raj Bist (M.Sc. Ag. in Agribusiness Management)

Value chain analysis of off-season tomato production under polyhouse system in Dhading, Nepal – Pradip Paudel (M.Sc. Ag. in Agribusiness Management)

4. DAIRY & MEAT TECHNOLOGY.....pp. 78-83

Studies on quality of probiotic yoghurt fortified with apple pulp and honey- Bharati Adhikari (M.Sc. Dairy Technology)

Process optimization of Gundpak - Radheshyam Khadka (M.Sc. Dairy Technology)

Process optimization of quality Chhurpi making- Ramji Prasad Sapkota

Preparation and quality evaluation of soya based yoghurt - Umesh Prasad Mandal (M.Sc. Dairy Technology)

Comparative study of different proportion of ostrich meat in poultry based emulsion sausage - Bishnu Babu Tiwari (M.Sc. Meat Technology)

Assessment of microbial hazard based on HACCP module on chicken sausage production plant -Parisha Thapa (M.Sc. Meat Technology)

Study on functional qualities of ostrich meat of different ages at chilled and frozen condtions - Rajendra Prasad Yadav (M.Sc. Meat Technology)

Study on residue of commonly used antibiotics in meat and eggs of chicken in Kathmandu Valley - Samrat Shresth (M.Sc. Meat Technology)
